### **Objective**

To design, plan, execute, control and monitor ERP activities while creating net value, building a competitive infrastructure, synchronizing supply & demand, and increasing production performance.

### **Highlights**

Extensive SAP, Oracle and Chempax, ERP and MRP use and implementation experience, which includes:

- Bridging gaps between technical developers and end-users to generate solutions
- Advanced cost accounting and batch operations
- Hands-on experience in all aspects of manufacturing, supply chain, and distribution of production chemicals

### **Professional Experience**

#### Oxea Chemicals, May-18 – Present

Supply Chain Planning Manager – North America

- Plan and execute monthly, quarterly and annual production and capacity planning for all assets in North America
- Determine appropriate stability between inventory levels, delivery costs and service levels at Oxea Corp terminals to support \$1.2B in sales
- Manage and support all short/long term planning management processes (S&OP's, Demand review, Global Re-Supply, Turn Arounds) building a strong cross function relationship with (finance, marketing, sales and production)
- Strategic sourcing liaison for Oxea
- Redesigned truck and railcar loading rack to increase operation efficiency and achieve a 10% on time delivery increase

#### Baze Chemical, Mar-17 – May - 18

Plant Manager

- Direct and manage plant operations for production, maintenance, purchasing, quality and shipping/receiving
- Accountable for site P&L
- Leverage and managed 5M in spend
- Ensure customer orders are timely manufactured to ensure on-time customer deliveries which demonstrate the highest level of quality control
- Negotiate and renew contracts with local short rail company
- Managed 3<sup>rd</sup> party IT firm and monitored server infrastructure as admin
- Managed Toll Manufacturing relationships increasing operation efficiency

Oxiteno – An Ultra Group Member, Feb 15 – Mar 17

Production Manager

- Monitor chemical and utility throughput to reactors, blenders and scrubbers and presented data to HSE to ensure the plant stayed within permit compliance
- Develop weekly, monthly, and yearly production plans that cover S&OP horizon based on demand, customer orders, current inventory and stock strategies
- Plan, assign and direct production
- Oracle Project Team Lead – MRP, WMS
- Managed 4 shift supervisors, day supervisor and operations teams

Sr. Production Planner and Scheduler

- Manage and improve production processes to maximize efficiency
- Identified problems or bottlenecks in the production process
- Created cross-department tools and reports to increase productivity
- Reduce on hand inventory and increased inventory turns
- Manage \$5.8M site inventory and all terminals

Multi-Chem – A Halliburton Service, Sep 12 – Feb 15

Business Process Analyst

- Maximized distribution efficiency and inventory control for 70 warehouses and 6 blend facilities
- Team lead for Multi-Chem Manufacturing/Data Management/Formula Management during integration from Oracle to SAP
- Responsible for MRP settings, forecasting, excess and obsolete inventory for Multi-Chem supply chain
- Developed and implemented process for managing companywide inventory which prevented excess and obsolete inventory of \$10M
- Developed tools that enhanced R&D ability to identify/reformulate products using rework material and monitored blend facilities compliance with rework policy decreasing dead stock by \$2M

**Education & Certificates**

Olivet Nazarene University, Bourbonnais, IL  
MBA – Masters in Business Admin, Oct 16  
3.82 GPA – Magna Cum Laude

University of Houston @ Clear Lake, Houston, Tx  
BS in Biology w/ minor in Chemistry, Dec 11

Halliburton Business Leadership Development II, May 14
